CSCI-576

Final Assignment

How to Run

1.   This is a C# program compiled on Visual Studio 2012.

2.   Command line: MediaQuery.exe "{query image path}" "[{alpha path}]" "{search image path}" [paint fine details]

Arg 1 is the query image path.

Arg 2 is the alpha file path; if empty, use empty double-quotes, "".

Arg 3 is the search image path.

Arg 4 is optional. Enter "1" (without quotes). It will paint fine details to show which areas within our bounding box are the biggest contributors to the answers.

Example: MediaQuery.exe "C:\576\images\coke_source.rgb" "" "C:\576\images\coke1.rgb"

Example: MediaQuery.exe "C:\576\images\starbucks_source.rgb" "C:\576\images\starbucks.alpha" "C:\576\images\starbucks1.rgb" 1
